

Beadles to Colombia

Dear Supporters and Praying Friends,

Medellín, Colombia has an estimated population of 4-5 million people. As a large metropolitan area, it does not lack religious institutions. What it does lack are Bible-believing churches. We are seeing a shift in religious preference from contemporary to conservative Christianity and our church is one of just two Independent Baptist Churches in the entire western side of the city. The projected growth for our ministry is exponential. Since we moved to our central location, we have seen our church grow and our quantity of new visitors skyrocket.

We are currently looking at a property very near to us that is priced at 1,100,000,000 Colombian pesos (285,000 USD with current exchange rate). It is just blocks away from the current metro system and a new tram system planned for construction in the near future. It is an empty lot just under 1,900 square feet. We plan to purchase the property as phase one and then raise additional funds for phase two to build a basic shell where we could hold services. Additional fund raising in phase three will also be needed afterwards to finish the inside of the building and build a second floor.

Here is the breakdown of our current situation (phase 1).

Purchase price of empty lot	285,000	USD
Total Funds Saved/Raised	200,000	USD

Total funds needed (phase 1) 85,000 USD

We would humbly ask that you consider this project and we pray that God moves your heart as you decide what to donate towards this great opportunity. As always, thank you for your dedicated support and prayer for our ministry.
